Simon Fraser University

Interactive Arts and Technology  
└ Interactive Systems

Curriculum and Instruction Minor

### my style

D&D Dungeon Master  
Dean's Honour Roll (2019)

### my interests

Theatre

Food

Hiking

Music

Games

## about me

I am a hyperactive learning technologist with five year's experience designing and developing high quality e-learning products for internal staff. My unique blend of skills offer me a wholistic perspective to the eLearning and instructional design lifecycle. When I'm not staring at a screen, I can be found hiking with my three dogs, or planning my next food adventure,.

## cool projects

### New Employee Orientation (Surrey - NEO)

PRESENT | eLearning Developer

Conceptualized a new orientation pathway for the City of Surrey with the objective of improving the onboarding experience. Mapped out objectives and worked with stakeholders to get curriculum approval. Solely responsible for the eLearning project cycle - building storyboards with SMEs, and developing the courses in Articulate Storyline 360.

### VCH Regional Orientation Online

JAN 2018 - MAY 2019 | Lead Developer

Led the development lifecycle of the VCH Regional Orientation, a curriculum taken by all new employees. Built custom webpages and plugins to support SMEs in adding their own content to the website. The custom homepage features a 360 degree view of mutiple VCH worksites, which prompts users to learn more about VCH as they explore and discover new spaces and facts.

## experience

### eLearning Developer and Administrator

JUNE 2021 - PRESENT | The City of Surrey

Worked with the Manager of Organizational Development to develop and implement eLearning strategy for the City of Surrey. Assisted with the rollout of the City's first LMS - participating in working groups for the implementation process. Generated organizational buy-in for online learning by working with teams across the city to develop high-quality education prior to LMS launch. Responsible for the entire development process of all eLearning material created by the Learning and Development team.

### Learning Design & Development

SEPT 2016 - JUNE 2021 | Vancouver Coastal Health

Responsible for managing the VCH Learning Management System. Collaborated with SMEs to identify learning challenges and key performance indicators for curriculum development. Lead in developing both web-based and SCORM-compliant education to front-line staff including projects such as VCH's Regional Orientation Online.
